

Programming in Python

Teachers Training Program

on

“Programming in Python”

April 05-07, 2019

Teachers Training Program on Programming in Python was organized for school teachers during April 05-07, 2019. For this event invitation letters were forwarded to many schools of MP, and nearby locations of UP and Rajasthan. 72 participants from different schools filled the registration form for participation and 42 participants from 24 schools participated in this event.

The feedback of participants was excellent and most of them have requested to organize similar events frequently.

On the same line another event for schools teachers on topic Artificial Intelligence & Python is also being planned. Its proposed date is December 05-07, 2019.
