Teacher's Training Program

on

"Programming in Python (including Django) & AI"

for School Teachers

December 06–08, 2019

Teachers Training Program on Programming in Python (including Django) & AI was organized for school teachers during December 06-08, 2019. For this event invitation letters were forwarded to many schools of MP, and nearby locations of UP and Rajasthan. 102 participants from 79 schools filled the registration form for participation and 63 participants from 57 schools participated in this event.

The feedback of participants was excellent and most of them have requested to organize similar events frequently.
